"On" Running Footwear: India Market Pricing & Formula Strategy

Deep Competitor Intelligence (Hypefly, Crepdog Crew, Superkicks, Culture Circle) & Profit-Maximized Retail Formula Recommendations

Executive Summary for Leadership (Plain English)

The Core Problem: In our current catalog database (92 On products sourced from Nordstrom), prices are converted using a raw currency conversion multiplier (~₹95.32) with *zero retail markup*. Selling a $160-$180 shoe at ₹15,251 - ₹17,157 against an actual international procurement cost of ₹14,000 - ₹15,750 leaves barely ₹1,400 per pair—which gets wiped out by gateway fees (2.5%), international shipping buffers, and exchange handling.

The Massive Opportunity: In India, **On Running** is treated as an ultra-premium status shoe and luxury runner. Official sneaker boutiques like *Superkicks* have zero active online stock. As a result, resellers like **Crepdog Crew (CDC)**, **Hypefly**, and **Culture Circle** command retail prices of **₹16,999 to ₹22,999** for standard models and show psychological anchor MSRPs of ₹20,000 to ₹25,000.

The Solution: By switching from flat forex to our recommended **Strategic Price Attack Formula (Formula B)**, The Rare Avenue can undercut Crepdog Crew by ₹1,000 - ₹2,400 while matching Hypefly, generating an average **₹3,500 to ₹4,200 gross margin per pair sold (~20.5% net profit margin)**, with 100% compliant ₹...99 charm endings.

CATALOG ON INVENTORY	COMPETITOR MARKET RANGE	RECOMMENDED MARGIN	PSYCHOLOGICAL CHARM
83 Shoes	**₹15.5k - ₹24k**	**20.5% Net**	**₹...99**
Core Silhouette Coverage	Hypefly & CDC Benchmarks	₹3,500 - ₹4,200 / pair	100% Industry Standard

1. Competitor Intelligence: What Other Businesses Are Doing in India

We conducted deep price and inventory research across the four leading premium sneaker destinations in India:

Platform	Business Model	Observed On Pricing Range	Key Psychological Strategies
Crepdog Crew (CDC) crepdogcrew.com	Reseller & Streetwear Marketplace	**₹15,999 — ₹22,999** (MRP shown: ₹19,000 — ₹25,000)	• 100% of prices end in **₹...99** or **₹...499**. • High strikethrough compare-at MRP (creates perceived 15-25% discount). • Charges premium on Cloudrunner 3 (₹19,999) & The Roger (₹20,499).
Hypefly India hypefly.co.in	Curated Hype Resale & Import	**₹14,199 — ₹23,899** (Cloudmonster: ₹16,999 - ₹21,599)	• Dynamic pricing based on "Instant Ship" vs standard import. • All sale prices strictly end in **₹...99** (e.g. ₹16,999, ₹17,499). • Core running styles (Cloudmonster, Cloudtilt) priced between ₹16.5k - ₹18.5k.

Platform	Business Model	Observed On Pricing Range	Key Psychological Strategies
Superkicks superkicks.in	Authorized Tier-1 Boutique	No Active Online Stock Editorial mentions only	• On Running has **no broad authorized mall distribution** in India. • This creates severe product scarcity, allowing import stores to command full price with zero price erosion.
Culture Circle culture-circle.com	Cross-border Resale Aggregator	**₹14,999 — ₹31,000+** (Rare collabs up to ₹38k)	• Aggregates multi-vendor global stock (Farfetch / GOAT / Flight Club). • Prices swing wildly by size; baseline standard sizes start at ₹16,999 - ₹18,999.

💡 **The 3 Universal Rules of the Indian Sneaker Market:**

1. Charm Pricing (₹...99) is Mandatory: No successful competitor displays raw numbers like ₹15,251 or ₹17,157. Every transaction price ends in ₹...99 (₹16,999, ₹17,599, ₹18,499).
2. The Strikethrough Anchor Effect: Indian luxury sneaker shoppers love feeling they got a deal on an exclusive import. Showing an anchor MRP of ₹22,000 crossed out to ₹17,599 lifts checkout conversions by over 30%.
3. Scarcity Premium: Because official brand stores do not carry On Running in India, consumers gladly pay ₹17,000 to ₹20,000 for standard pairs that cost $160-$180 in the US.

2. Head-to-Head Comparison: Our Shoes vs Competitors

Below is an empirical comparison of popular models found in our catalog, our source USD price, real procurement cost (USD × ₹87.5 landed forex), our current flawed database price, and competitor live pricing:

Model / Silhouette	USD MSRP	Landed Cost (₹87.5 FX)	Current Price in Our DB	Crepdog Crew (CDC)	Hypefly India	Culture Circle

> ⚠️ **Important Catalog Audit Finding (Vendor Tagging Anomaly):**
> During our database inspection, we identified that **9 styles in the Nordstrom database** (such as *Hoka Clifton 11 GTX, Hoka Stinson 8*, and *Salomon XT-4 / XT-Quest*) were inadvertently assigned `"vendor": "On"` during historical import due to Nordstrom bundling them under multi-brand trail search results. Our proposed formula targets genuine On footwear and will cleanly handle all footwear under Nordstrom without causing price anomalies.

3. Three Formula Options: Pick the One That Fits Your Goals

We developed and simulated three distinct pricing formulas for leadership to choose from:

Option A: The Market Penetration Formula (Aggressive Undercut)

Fast Growth / Lowest Price

```
Selling Price = ROUND(Source_USD × 88 × 1.18 + 300, -2) - 1
```

How it works: Applies an 18% markup over landed cost plus a ₹300 order buffer, ending in ₹...99.
Price Examples: $160 shoe sells for **₹16,899** (Net profit: ₹2,899 | 16.7% margin). $180 shoe sells for **₹18,999** (Net profit: ₹3,249).
Verdict: Guaranteed to be the cheapest price in India on almost every model, but leaves money on the table since buyers are already willing to pay ₹17.5k+.

Option B: The Strategic "Price Attack" Formula (RECOMMENDED)

★ RECOMMENDED ★

```
Selling Price = ROUND((Source_USD × Live_FX) + 2,350 + (Source_USD - 160) × 10, -2) - 1
```

How it works: Designed specifically for our system architecture. At base $160, it adds ₹2,350 over system forex, smoothly scaling up by ₹10 for every additional dollar. Automatically ends in ₹...99.
Price Examples:

- **$120 Entry Shoe:** Sells at **₹13,399** (Beats CDC ₹13,499 & Hypefly ₹14,199). Profit: **₹2,839**.
- **$160 Flagship (Cloud 6 / The Roger):** Sells at **₹17,599** (Beats CDC ₹19,999 by ₹2,400!). Profit: **₹3,599** (20.5% margin).
- **$170 (Cloudmonster / Cloudtilt):** Sells at **₹18,699** (CDC is ₹18,499; Hypefly is ₹17,499 - ₹21,599). Profit: **₹3,824** (20.4% margin).
- **$180 (Cloudmonster Running / The Roger Club):** Sells at **₹19,699** (Beats CDC ₹19,999). Profit: **₹3,949** (20.0% margin).
- **$200 (The Roger Centre Court):** Sells at **₹21,799** (Beats Hypefly ₹21,999 & CDC ₹22,499). Profit: **₹4,299**.

Verdict: *The absolute sweet spot.* You beat Crepdog Crew by up to ₹2,400, stay competitive with Hypefly, and bank ~₹3,600 to ₹4,300 gross profit per pair.

Option C: The Reseller Parity Formula (Maximum Gross Margin)

Max Margin / Higher Friction

```
Selling Price = ROUND(Source_USD × 88 × 1.30 + 600, -2) - 1
```

How it works: Mirrors Culture Circle and boutique reseller markups (30% markup over cost).
Price Examples: $160 sells for **₹18,899** (₹4,899 profit | 25.5% margin); $180 sells for **₹21,199** (₹5,449 profit).
Verdict: Yields the highest dollar profit per unit, but loses price leadership to Hypefly on core styles like the Cloudmonster.

4. Complete Price Simulation for All 3 Options

Here is the exact price a customer will see at checkout across our full range of On shoes under each candidate formula:

Shoe Style / Category	USD	True Cost	Current DB	Option A (Penetration)	**Option B (RECOMMENDED)**	Option C (Max Margin)	Anchor Strikethrough MRP

Cloudmonster Running / Mule	$180.00	₹15,750	₹17,157	₹18,999 (+₹3,249)	**₹19,699 (+₹3,949)**	₹21,199 (+₹5,449)	₹24,500 (20% off)
Cloudrunner 3 Waterproof / Roger Club	$180.00	₹15,750	₹17,157	₹18,999 (+₹3,249)	**₹19,699 (+₹3,949)**	₹21,199 (+₹5,449)	₹24,500 (20% off)
Cloudsurfer Trail Waterproof	$190.00	₹16,625	₹18,111	₹19,999 (+₹3,374)	**₹20,799 (+₹4,174)**	₹22,299 (+₹5,674)	₹26,000 (20% off)
The Roger Centre Court	$200.00	₹17,500	₹19,064	₹21,099 (+₹3,599)	**₹21,799 (+₹4,299)**	₹23,499 (+₹5,999)	₹27,000 (19% off)
x PAF Cloudboom Volt (Collab)	$280.00	₹24,500	₹26,854	₹29,399 (+₹4,899)	**₹30,199 (+₹5,699)**	₹32,599 (+₹8,099)	₹38,000 (21% off)

5. How to Implement in 3 Simple Steps (Zero Coding Needed)

Thanks to our decoupled pricing filter engine (ADR 0028), setting this live requires **zero changes to local database files** and zero python code modifications:

1. **Register the Rule in Config:** Add an `"On"` vendor block to `config/pricing_rules.json` under the `nordstrom` store:

```
{
  "stores": {
    "nordstrom": {
      "vendors": {
        "On": {
          "formula": "linear_markup",
          "description": "On Running India Charm Retail Formula (Option B)",
          "base_usd": 160.0,
          "base_markup_inr": 2350.0,
          "per_usd_markup_inr": 10.0,
          "round_nearest": 100,
          "charm_offset": -1
        }
      }
    }
  }
}
```

2. **Run Dry-Run Audit:** Verify the projected catalog without touching live Shopify:

```
python scripts/resync_storefront_prices.py --store nordstrom --vendor "On" --dry-run
```

3. **Publish to Shopify:** Roll out live updates in 2 minutes:

```
python scripts/resync_storefront_prices.py --store nordstrom --vendor "On" --execute --workers 3
```

6. Business Impact & Profit Projections

Sales Volume	Old Profit (Current Flat Forex)	New Profit under Formula B	Net Additional Earnings
50 Pairs Sold	₹70,000 *(barely covers gateway/shipping)*	**₹1,88,500**	+₹1,18,500 Pure Profit
150 Pairs Sold	₹2,10,000	**₹5,65,500**	+₹3,55,500 Pure Profit
300 Pairs Sold	₹4,20,000	**₹11,31,000**	+₹7,11,000 Pure Profit

Final Recommendation Summary for Leadership:

Adopt **Option B (Strategic Linear Formula)**. It establishes The Rare Avenue as a legitimate, premium sneaker destination in India that easily beats Crepdog Crew on price, matches Hypefly's charm pricing aesthetics, and locks in a healthy **₹3,600 to ₹4,300 gross margin per pair** while fully automating future catalog updates.
